

It is my belief that FCC must limit cross ownership of media outlets to ensure diversity in media. As a consumer I am most uncomfortable with my already limited resources of information and fear even further limitation. Diversity as well as intellectual discourse is the essential to a productive Democracy and this can only be achieved and maintained by a diverse media. Please consider Al Jazeera and the effects of a media monopoly on a region/ not something I am interested in nor is it a media source that I trust. Thank you for your time.
